

Join the Flyway Challenge Quadruple Your Impact 4 Nature

Did you know that close to 70% of all North American waterfowl are estimated to breed in Canada? Many species need habitat in more than one country to thrive.

Currently there is an incredible leverage opportunity — each U.S. sourced donation for conservation work in Canada that benefits U.S. migratory birds can be matched 3 to 1. That means a gift of \$100 turns into \$400 of conservation results!

Good for Nature. Good for the Birds. Good for the U.S. Good for Canada.

We have fundraising dinners happening across the country this summer and now we are asking you to join our Flyway Challenge to help us reach the goal of \$10,000 raised per flyway.

Your donation will help build a legacy of protected lands in Canada (now that is tangible!) that provide breeding habitat for U.S. migratory birds. Birds like the Northern Pintail, Long-billed Curlew, Piping Plover, American Wigeon, American Black Duck and many more.

Which Flyway will you support?

- [Atlantic Flyway](#)
- [Central Flyway](#)
- [Mississippi Flyway](#)
- [Pacific Flyway](#)

Please donate today!

All contributions are tax-deductible to the fullest extent permitted under U.S. law. All donations will go directly to support the protection and care of wetlands and other migratory bird habitat in Canada*.

Visit www.friendsofncc.org for more information about your donation, the dinners and the cause.

Thank you! We couldn't do it without you.

The Friends of the Nature Conservancy of Canada (FNCC) is a registered U.S. charity that supports Canadian conservation work with a focus on projects that benefit the U.S. FNCC is partnering with Canada's largest conservation organization, the Nature Conservancy of Canada (NCC) on key conservation projects that are deemed eligible for match. www.friendsofncc.org
